## Student Withdrawal

---

One full term's notice in writing, addressed and submitted to the Principal, prior to the commencement of the final term, is required of an intended withdrawal from the School and from residential accommodation. Payment of one term's tuition and/or residential accommodation fees will apply if this notice is not received.

## Please Note

---

- Expenses relating to co-curricular activities that are not covered by fees include the cost of sports equipment, musical instruments, sports uniforms, outdoor education clothing, national and international travel and fees for some sports facilities and camps.

- As members of the School community, it is expected that students respect and care for School property, including computers. The School's student handbooks set out our expectations and policies in respect to students accepting the consequences of their actions, including paying for any damage to property caused by their negligence. Whilst the School carries insurance for loss or damage to computers in certain circumstances, our policies carry standard claim excesses and do not provide cover for wilful damage or neglect.

- The School charges a flat rate excess of \$250 per repair for non-warranty repairs to, or replacement of, computers. This excess applies regardless of fault, as it is the School's expectation that students will take full and proper care of their computers at all times. Students must also replace, at their own expense, computer power packs and protective cases in the case of non-warranty loss or permanent damage. In addition, the School may require families to bear full repair or replacement costs incurred through wilful damage or neglect. Further details of these charges will be provided to parents on a case-by-case basis should the need arise.
