

APPOINTMENT OF

(FIXED TERM PART-TIME POSITION)

2020

PURPOSE & CONCERNS

The Friends' School is a coeducational Quaker school based on fundamental values such as the intrinsic worth of each person, the recognition of 'that of God' in everyone, the desirability of simplicity and the need to establish peace and justice.

As a learning community, we are concerned for the academic, cultural, physical, social, emotional and spiritual development of each person in our care.

We seek to help our students develop as people who will think clearly, act with integrity, make decisions for themselves, be sensitive to the needs of others and the environment, be strong in service and hold a global perspective.

We believe that these aims can best be achieved with the active support of all members of our School community.

THE POSITION

We are seeking to appoint a suitably qualified, enthusiastic and motivated teacher with the capacity and qualifications to teach Humanities, and in particular pre-tertiary Accounting and Economics, from Term 2 2020 (27 April) to the end of the school year. There is the possibility of an ongoing appointment in 2021, with the prospect of full-time employment. It is anticipated that the teaching load will be approximately 60% full-time equivalent. SCHOOL CURRICULUM

MORRIS - FRIENDS' PRIMARY YEARS
(KINDERGARTEN TO YEAR 6)

At Morris our aim is for the students to learn within the context of the School's Purpose and Concerns, where the intrinsic worth of the individual, peace, justice and community are sought and where we all strive to be life-long learners embodying responsibility and integrity.

The International Baccalaureate Primary Years Program (IBPYP) is the curriculum framework implemented for all children from Kindergarten to Year 6. This educational framework aims to develop children's intercultural understanding and promote global citizenship through an inquiry pedagogy. The IBPYP is carefully structured to develop the academic, physical, cultural, spiritual, social and emotional needs of children at each year level. Classroom programs are developed to allow for the individual growth of every child. Learning outcomes and General Capabilities of the Australian Curriculum are encompassed within the program.

Constructive play and exploration in Kindergarten provide a solid foundation for children moving through the Primary School. English, Mathematics and the development of independent learning skills are a key focus within a concept-driven Program of Inquiry. As students progress through Morris, they are exposed to aspects of the broader program including co-curricular and enrichment programs. Each child's development is documented and tracked in consultation with parents.

Morris offers a rich and varied co-curricular program in support of the School's Purpose and Concerns and formal curriculum. It allows for the development of new skills and provides opportunities for the development of individual interests to enhance PYP attitudes and to enable action to be taken by the children. It provides for the development of a balanced child and supports the wellbeing of all community members. Opportunities are also provided for involvement in sporting, music, service, enrichment and extension activities.

HIGH SCHOOL (YEARS 7 TO 10)

Subjects in the curriculum have been organised into the eight learning areas of the Australian Curriculum. English, Health and Physical Education, Humanities, Mathematics and Science are core areas. In addition, there are some 20 subjects students may take at some stage in Years 7-10. These include:

<i>Arts:</i>	Art, Ceramics, Music, Drama, Dance
<i>Health:</i>	Sport Science, Outdoor Education
<i>Languages:</i>	Chinese, French, German, Japanese
<i>Humanities:</i>	Economics, Business and Law, Geography, History, Philosophy, Religious Studies, Social Psychology.
<i>Technology:</i>	Computer Graphics and Design, Design and Technology, Food & Textiles, Information Communication Technology, Programming & Control Technology, Multimedia, Automotive Studies

Year 7 Program

Year 7 is seen as a transition stage from primary to secondary education. The Year 7 program is structured so that it provides a firm foundation for the courses in the rest of the High School. Students follow a common course including subjects from all eight faculties, in such a way as to enable them to make informed choices when they come to determine their program for Year 8 and then for Years 9 and 10. The Year 7 Connections Program is a highlight of the curriculum.

Year 8

Year 8 completes the foundation begun in Year 7. In addition to English, Health and Physical Education, Humanities, Mathematics and Science, all students take a course in a language other than English as well as units in the Arts and Technology areas.

Year 9 and 10

At this stage, apart from the compulsory subjects, students may take any subject. Courses are structured to be taken through Years 9 and Year 10, so that they can be studied in depth to prepare students for the demands of the TCE or IB in Years 11 and 12.

C L E M E S (Y E A R S 1 1 A N D 1 2)

The TCE (Tasmanian Certificate of Education) comprises subjects of either 50 hours or 150 hours. Students preparing for tertiary entrance need as a minimum requirement four pre-tertiary courses, three of which must be completed successfully in Year 12. For university selection purposes, a student's score comprises their best five 150 hour subjects, at least three of which must be completed at pre-tertiary level in Year 12. To complete the TCE Certificate, students must have studied the equivalent of eight 150 hour courses over two years of study.

The IB Diploma Programme (DP) is a rigorous, academically challenging and balanced programme of education designed to prepare students for success at university and in life. The DP aims to encourage students to be knowledgeable, inquiring, caring and compassionate, and to develop intercultural understanding, open-mindedness and the attitudes necessary to respect and evaluate a range of viewpoints.

The aim of the DP, like all IB programmes, is to develop internationally minded people who, recognising their common humanity and shared guardianship of the planet, help to create a better and more peaceful world. The DP provides the opportunity to develop both disciplinary and interdisciplinary knowledge that meets the rigorous standards set by institutions of higher learning around the world.

To ensure both the breadth and depth of knowledge and understanding, students must choose at least one subject from five groups: 1) their best language, 2) additional language(s), 3) humanities and social sciences, 4) experimental sciences, and 5) mathematics, and either an arts subject, or a second subject from the groups 1 to 5. Of these six subjects, three are taken at the higher level (HL) and three are taken at the standard level (SL). In addition, three core elements—the extended essay, theory of knowledge and creativity, action, service—are compulsory and central to the philosophy of the programme.

LEARNING PARTNERSHIP UNDERSTANDING

The purpose of this understanding is to affirm with all members of the School community (parents/guardians, students and staff) the School's anticipated student learning outcomes, educational philosophy and engagement expectations.

The Friends' School strives to adhere to the *Purpose and Concerns*. By implementing the Australian Curriculum (K–10), and using the International Baccalaureate framework at Morris (K-6) and Clemes (11 and 12), along with the Tasmanian Certificate of Education and Vocational Education and Training (TCE and VET) at Clemes:

"We seek to help our students develop as people who will think clearly, act with integrity, make decisions for themselves, be sensitive to the needs of others and the environment, be strong in service and hold a global perspective."

The School acts on the expectation that each member of our learning community seeks to challenge themselves in order to grow and live more fully in the truth. We aim for the development of self-discipline and respect within each student that enables them to enter more deeply into their own understandings and ongoing maturation in order to let their life speak. The School employs professional educators with expertise and experience to guide students to these outcomes.

We understand that student learning is best enhanced through the development of a strong, collaborative learning partnership among all members of the School community. We understand that parents/guardians know their child. Upon enrolling, our families will work with the School to enter into the pursuit of healthy and purposeful relationships to achieve the aims articulated in the *Purpose and Concerns*.

We understand that all members of the School community are to:

- support the aims of the School as expressed in the *Purpose and Concerns*
- work to develop trusting relationships
- provide complete and full disclosure of any and all medical, physical, social, emotional and/or learning needs that might arise throughout the student's enrolment
- engage in timely, helpful, civil and respectful communication with the person most able to assist an inquiry, while respecting staff, student and family boundaries
- support positive and constructive engagement in all aspects (curricular and co-curricular) of the student's learning process
- draw upon the collective expertise and strengths of all members of the School community involved in a student's education
- develop constructive pathways and respect for alternate viewpoints if disputes occur or relationships are challenged.
